“ *Eddie was a big teddy bear. He was everything to me. He was my cousin but more like my brother. Life is short amd i was mad and bot talking to him for a while but i was able to put that behind me and spent alot of time with him in the months leading to his death if you love someone let them know because you never know when they will go. I love eddie and my family and we thank everyone who helped of shared a part of his life he willl truly be missed but never forgotten*
